#### Important to Builders and Contractors.

We learn from our Charleston exchanges that Mr. P. P. Toale, the well known manufacturer of Doors, Sashes, Blinds, &c., has established a depot at No. 20 Hayne Street, where he keeps constantly on hand not only all articles from hi own manufactory, but also every variety of builders' hardware. French and American window glass, both plain and ornamental, slate mantels. and, in short, everything necessary to finish hand somely a residence, a store, or a church.

#### Exuberant Moulth

Is a blessing vouchsafed to few. Even those who have been favored by nature with strong constitutions and vigorous frames are apt to neglect the organtions necessary to preserve these precious endowments. Indeed, as a rule, the more healthy and robust a man is, the more liberties he is inclined to take with his own physique. It is some consolution to the naturally weak and feeble to know that they can be so inviserated and built up, by a proper use of the means which science has placed at their disposal, as a bave a much better chance of long life, and exemptions from disease and pain. Than the most a bletic of their tellows who are teolish enough to think themselves nvulnerable, and act accordingly.

It is not too much to say that more than half

e per ple of the civilized world need an occusion tonic, to enable them to support the strain upn their bodies and minds, which the fast life of his vestless age occasions. In fact, a pure, wholee, unexciting tonic is the grand desideratum the busy millions, and they have the article in Sostetter's Stomach Bitters. It is a staminal nedicine, i. e. it imparts permanent strength to yeak systems and invigorates delicate constitutions. Its rejutation and its sales have steadily nereased. Competitive preparations have been ptroduced ad libitum, and, as far as the public is concerned, ad nauseum, in the hope of rivaling it; but they have all either perished in the attempt, or been leftfur in the rear. It has been the great medical success of the present century, and it is quite certain that no proprietary medicine in this

ry is as widely known, or as generally used. deh excepted,) the whole year through, barely deh excepted,) the Hibstrated Almanae, A which the nature and uses of the preparation are set forth, the circulation now being over eight millions a year.
